

White Cedar

Thuja occidentalis

- Best to collect after September 1
- Ripe cones are yellow to tan in color
- Pull apart the cones to look for full seeds
- Full seeds are 'plump', compared to bad seeds which are 'flat'
- Cones should be kept cool with gunny sacks only half full
- Cones can be single or in clusters with little or no green foliage attached
- Cones should be delivered to the nursery weekly

Notify Badoura Nursery at 218-652-2385 as you begin collecting and purchasing cones. Call if you have ANY questions.
