

Appendix A. Seven-Year Stand Selection List

The following table identifies the stands selected for the Mille Lacs Uplands Subsection seven-year plan. The data fields are as follows:

- **Area:** The subsection has six primary DNR Forestry area offices – Aitkin, Brainerd, Cambridge, Cloquet, Little Falls, and Sandstone.
- **Location ID:** The unique number identifying the stand within a given township and range. The combination of twp/rge/rdir/stand provides the unique identifier for each stand.
- **Sec / Twp / Rge:** Legal description of the stand (section, township, and range).
- **Cover type:** The forest cover type assigned to the stand.
- **Acres:** Harvested or managed acres within the stand (total acres may be more).
- **Age:** Current age of the stand as of 2005.
- **Preliminary Prescription:** The proposed general action to be taken to achieve a desired management objective based on information available at the time of stand selection. This will be verified or revised based on a subsequent field visit. See glossary for definitions.
- **Year:** Fiscal Year (FY = July 1 through June 30). The FY when the stand examination is planned to be completed. If the stand evaluation finds the stand conditions suitable for timber harvest and a timber appraisal is completed, the estimated year the appraised timber will be offered for sale.

Table A.1. Seven-Year Stand Examination List by Location

Area	Location	Stand	Sec	Twp	Rng	Cover type	Acres	Age	Preliminary Prescription	Year
Sandstone	t04515w1060010	10	6	45	15	Birch	17	86	Clearcut with residuals	2006
Sandstone	t04517w1010004	4	1	45	17	Aspen	25	69	High risk stand	2006
Sandstone	t04516w1060025	25	6	45	16	White spruce	8	75	Commercial thinning	2006
Sandstone	t04516w1040026	26	4	45	16	Lowland black spruce	11	86	Clearcut with residuals	2006
