

Planned Management at Sand Dunes State Forest 2016-2017 8/26/2016

In Progress:				
Location	Map Reference	Activity	Approx Acres	Purpose
Uncas Dunes SNA south unit	SNA South Unit	Prescribed fire	17	promote native vegetation
Uncas Dunes SNA south unit	SNA South Unit	Cow vetch control - herbicide	2	remove invasive species
Uncas Dunes SNA north unit	SNA North Unit	Cow vetch control - herbicide	2	remove invasive species
Uncas Dunes SNA north unit	SNA North Unit	Pine removal	less than 1	remove pines that seeded in
North unit	X014763	Sold timber sale	10	final harvest and regenerate
North unit	B01258	Sold timber sale	159	thinning to improve health and growth
North unit	B01259	Sold timber sale	68	final harvest and regenerate
North unit	Site A	Thin RP plantation on Trust land	43	thinning to improve health and growth
North unit	Site B	Harvest and replant trees	25-35	final harvest and replant pines
South Unit	Site D	Improve existing road		enable mgmt and avoid township roads
Legislatively Funded, More Discussion Needed:				
North unit	Immediate site 3	Prescribed fire	17	promote native vegetation
North unit	Immediate site 1	Install mineral firebreaks		fire barrier
North unit	Immediate site 2	Install mineral firebreaks		fire barrier
South Unit	Immediate site 5	Install mineral firebreaks		fire barrier
North Unit	Ann Lake Campground	Buckthorn surveys		survey for invasive control needs
North unit	Ann Lake Campground	Buckthorn treatment - herbicide		remove invasive species
North unit	Bob Dunn Rec area	Invasive species survey		survey for invasive control needs
South Unit	Immediate areas 6, 7, 9	Invasive species control	98	remove invasive species
Uncas Dunes SNA	Uncas Dunes	Invasive species control	12	remove invasive species
Unfunded, More Discussion Needed:				
North unit	Immediate site 2	Vegetation restoration	19	restore to oak savanna
South Unit	Immediate site 5	Vegetation restoration	82	restore to oak savanna
South Unit	Immediate site 5	Install mineral firebreaks		fire barrier
South Unit	Immediate site 5	Invasive species control		remove invasive species
South Unit	Immediate site 6	Vegetation restoration	68	restore to mix of oak woodland and savanna
South Unit	Immediate site 8	Vegetation restoration	4	restore to mix of oak woodland and savanna
South Unit	Immediate site 9	Vegetation restoration	137	restore to mix of oak woodland and savanna
North unit	Site C	Site prep and replant trees	18	reforest a previously harvested site
