Information regarding SFI ® and FSC © certification is located in the individual tract listings.

The following pages list the lands upon which the timber is located, the estimated quantities of timber that are offered, and the appraised prices. Full details of harvest specifications are included in a permit's Timber Appraisal Report; only the season of operations, sale conditions, and marketing conditions from the appraisal are included in this notice.

Unsold tracts from Regular Auctions are listed first in this notice, followed by unsold tracts from Intermediate Auctions. Tracts are listed in order by Forestry Office and Permit Number.
MINNESOTA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
REGULAR AUCTION
UNSOLD TRACTS AVAILABLE FOR OVER-THE-COUNTER PURCHASE

TERMS OF SALE
- The auction sales(s) was held according to Minnesota Statutes § 90.101 and 90.14. Timber shall be offered and sold by the same unit of measure as it was appraised. Sale shall be made to the responsible bidder who pays the appraised price for all timber species advertised on each unsold tract.

REGISTRATION AND ELIGIBLE BIDDERS
- Interested persons must be registered at least four (4) business days prior to the purchase of an unsold tract by submitting an Annual Timber Sales Purchaser Registration form. No bid purchase will be allowed from anyone having a delinquent timber sale or trespass account or a willful timber trespass with any public agency in Minnesota, or from anyone who does not qualify as a Responsible Bidder as defined in Minnesota Statutes § 90.01 (12), or from anyone who has been debarred for cause by any public agency [M.S. § 90.041 (11)].

DOWN PAYMENT
- Purchasers of timber must pay a down payment of fifteen (15) percent of the appraised value of the timber at the time of purchase. The down payment will be kept on deposit by the State and applied against any billings for timber. The purchaser may elect to have the down payment refunded if they post security for one hundred (100) percent of the bid price of the timber (see Security Required). If the purchaser does not sign the permit document within 45 days of sale purchase, the down payment will forfeit to the State. A permit signature extension of 10 business days may be granted, provided the purchaser pays a $200 penalty.

PURCHASER AND LOGGER QUALIFICATIONS AND OPERATIONS REQUIREMENTS
- The purchaser or the purchaser's agents, employees, subcontractors, and assigns conducting logging operations on a timber permit must comply with the general industry safety standards for logging (e.g., LogSafe) adopted by the Commissioner of Labor and Industry and provide proof of compliance with these standards. The purchaser or the purchaser's agents, employees, subcontractors, and assigns conducting logging operations on a timber permit must comply with the State of Minnesota mandatory insurance requirements before harvest operations begin. A Certification of Compliance with the Minnesota Workers' Compensation Law form must be submitted each year. Before the start of harvest operations, the purchaser must certify that a designated foreperson, who will be supervising active logging operations, has a current certificate of completion from a logger education program (e.g., MLEP or FISTA) approved by the Commissioner of Natural Resources.

SECURITY REQUIRED
- The purchaser must furnish security equal to the total bid value of the permit, LESS the amount paid as a down payment. Security can be furnished in the following forms: Corporate surety bond, Letter of Credit, certified check, cashier's check, personal check, money order, or by signing a Cutting Block Payment Agreement for individual cutting blocks, at least one business day prior to the start of any permit operations. If the purchaser elects to receive a refund of the down payment, they must furnish security in a form described above, for one hundred (100) percent of the total bid value of the timber purchased. If the deferred cash payment for cutting blocks is selected, the down payment WILL NOT be refunded. If the purchaser elects to secure a permit by prepayment of cutting block(s), they must make a written request on a form provided by the state. No harvesting is permitted until proper security has been furnished to and approved by the Commissioner of Natural Resources or his agent.

PERMIT TERMS
- A permit to harvest and remove the timber from state lands will be issued to the purchaser. NO permit shall be issued to anyone other than the purchaser in whose name the purchase was made. All timber purchased on the permit must be harvested prior to the permit expiration date. All permits provide for the continuous identification of timber from the time of cutting until delivery to the consumer. Failure to continuously identify the timber as specified in the permit shall constitute trespass. Also, please note all harvest specifications on each tract being sold. Only one Regular Extension is permitted for exceptional circumstances. An annual interest rate of 5 percent may be charged on a regular extension for the period of the extension.

**Mixed Product Description:**
Tamarack Pulp & Bolts includes: Bolts 22%; Pulpwood 78%.

**Season of Operations:**
- Conduct felling, skidding and hauling on frozen soil conditions only, except with written permission from State.

**Sale Conditions:**
- Access is across state land.

**Marketing Conditions:**
Permit is located 2 miles east and 2 miles south of Meadowlands, MN off of County Rd 47 - Agnew Rd. Stand has an active larch beetle infestation which has been causing a slow decline and death in the stand. Prices have been reduced 65 percent as 43 percent of this stand has been appraised as standing dead in April 2018. Due to tamaracks rot resistant qualities the wood has remained and may remain merchantable for some time. The winter access route has already been dozed into the landing. An easement for this portion of the Albom snowmobile trail is owned by the State so the proposed access route off County Rd 47 (Agnew Rd) is across State land.

Prices reduced additional 15% of last appraised price due to re-offer.

4 year sale length due to winter frozen ground access and operation in a lowland tamarack swamp forest.

Bolt percentage is estimated at 22% with some saw-timber also present in this mature stand.

This permit has been cruised in April 2018 to allow for SOAV option.

Digital map or GPS shapefile of the permit area is available upon request to permit holder for use as a general reference.

At the time of purchase this permit is not within the MDA Ash Quarantine Area.

**Sale Conditions:**

- Access is across state land.

**Marketing Conditions:**

Sale involves multiple white pine stands near our lower Reno campground. There is some slope involved with some of the stands. All stands were previously thinned in the early 2000's with cut to length equipment.

Landing space may be limited in certain areas. Campground may be used to deck wood during the winter months. Campground is popular during the rest of the year.

Price reduced 15% due to haul distance to nearest mill.

Ash is heavily infested with emerald ash borer and will most likely be dead within a year or two.

Information regarding SFI ® and FSC © certification is located in the individual tract listings.

The following pages list the lands upon which the timber is located, the estimated quantities of timber that are offered, and the appraised prices. Full details of harvest specifications are included in a permit's Timber Appraisal Report; only the season of operations, sale conditions, and marketing conditions from the appraisal are included in this notice.

Unsold tracts from Regular Auctions are listed first in this notice, followed by unsold tracts from Intermediate Auctions. Tracts are listed in order by Forestry Office and Permit Number.
UNSOLD TIMBER SALES - DATA AS OF 07/05/2019

MINNESOTA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
INTERMEDIATE AUCTION
UNSOLD TRACTS AVAILABLE FOR OVER-THE-COUNTER PURCHASE

TERMS OF SALE
- The auction sales(s) was held according to Minnesota Statutes § 90.101 and 90.14. Timber shall be offered and sold by the same unit of measure as it was appraised. Sale shall be made to the responsible bidder who pays the appraised price for all timber species advertised on each unsold tract.

REGISTRATION AND ELIGIBLE BIDDERS
- Interested persons must be registered at least four (4) business days prior to the purchase of an unsold tract by submitting an Annual Timber Sales Purchaser Registration form. No bid purchase will be allowed from anyone having a delinquent timber sale or trespass account or a willful timber trespass with any public agency in Minnesota, or from anyone who does not qualify as a Responsible Bidder as defined in Minnesota Statutes § 90.01 (12), or from anyone who has been debarred for cause by any public agency [M.S. § 90.041 (11)]. Purchase of Intermediate Auction tracts is limited to registered persons or companies with 30 or fewer employees. Beginning 30 days after the auction date (Original Sale Date), an unsold Intermediate Auction tract may be purchased by any registered responsible bidder, i.e., purchase is no longer limited to businesses with 30 or fewer employees.

DOWN PAYMENT
- Purchasers of timber must pay a down payment of fifteen (15) percent of the appraised value of the timber at the time of purchase. The down payment will be kept on deposit by the State and applied against any billings for timber. The purchaser may elect to have the down payment refunded if they post security for one hundred (100) percent of the bid price of the timber (see Security Required). If the purchaser does not sign the permit document within 45 days of sale purchase, the down payment will forfeit to the State. A permit signature extension of 10 business days may be granted, provided the purchaser pays a $200 penalty.

PURCHASER AND LOGGER QUALIFICATIONS AND OPERATIONS REQUIREMENTS
- The purchaser or the purchaser's agents, employees, subcontractors, and assigns conducting logging operations on a timber permit must comply with the general industry safety standards for logging (e.g., LogSafe) adopted by the Commissioner of Labor and Industry and provide proof of compliance with these standards. The purchaser or the purchaser's agents, employees, subcontractors, and assigns conducting logging operations on a timber permit must comply with the State of Minnesota mandatory insurance requirements before harvest operations begin. A Certification of Compliance with the Minnesota Workers’ Compensation Law form must be submitted each year. Before the start of harvest operations, the purchaser must certify that a designated foreperson, who will be supervising active logging operations, has a current certificate of completion from a logger education program (e.g., MLEP or FISTA) approved by the Commissioner of Natural Resources.

SECURITY REQUIRED
- The purchaser must furnish security equal to the total bid value of the permit, LESS the amount paid as a down payment. Security can be furnished in the following forms: Corporate surety bond, Letter of Credit, certified check, cashier's check, personal check, money order, or by signing a Cutting Block Payment Agreement for individual cutting blocks, at least one business day prior to the start of any permit operations. If the purchaser elects to receive a refund of the down payment, they must furnish security in a form described above, for one hundred (100) percent of the total bid value of the timber purchased. If the deferred cash payment for cutting blocks is selected, the down payment WILL NOT be refunded. If the purchaser elects to secure a permit by prepayment of cutting block(s), they must make a written request on a form provided by the state. No harvesting is permitted until proper security has been furnished to and approved by the Commissioner of Natural Resources or his agent.

PERMIT TERMS
- A permit to harvest and remove the timber from state lands will be issued to the purchaser. NO permit shall be issued to anyone other than the purchaser in whose name the purchase was made. All timber purchased on the permit must be harvested prior to the permit expiration date. All permits provide for the continuous identification of timber from the time of cutting until delivery to the consumer. Failure to continuously identify the timber as specified in the permit shall constitute trespass. Also, please note all harvest specifications on each tract being sold. Only one Regular Extension is permitted for exceptional circumstances. An annual interest rate of 5 percent may be charged on a regular extension for the period of the extension.

Sale is a mixture of species with black spruce and balsam fir being dominant. Stand quality is mixed with the bulk of the sale being fair to good quality.
Majority of the spruce and tamarack fuelwood volumes are located in the southwestern harvest area. The bulk of the aspen and balsam are located in the northeastern harvest area. The bulk of the tamarack pulpwood is located in the farthest north harvest area and was 100% live at time of cruise in March 2019.

Sale is located approximately 5.5 miles south of the Indian Pines Forest Road and 5.5 miles west of the Fiero truck Trail.

- Basswood Pulp & Bolts includes: Bolts 20%; Pulpwood 80%.

### Season of Operations:

- Conduct sale operations on frozen soil conditions only, except with written permission from State.
- Frozen ground access only.

### Sale Conditions:

- Access is across state, private and tribal land.
- Permission to cross private and tribal land must be obtained by permittee.

### Marketing Conditions:

This sale is located on the west side of Inguadona Lake approx. 3 miles east of Longville, MN. The harvest is a clearcut with scattered reserve trees and 70 sqft of BA will be reserved in the RMZ. A road through private, tribal and state property was used in the past to access this general area, approx 100 yards of new road will need to be made. Due to the amount of residuals throughout the sale, cut to length equipment is recommended but not required. If skidding, care will need to be taken to not damage residuals. Trees may need to be cut shorter, prior to skidding. Due to the soil type in the stand it may need to be froze down prior to felling operations.

### Certification Note:

The timber on this tract is SFI and FSC certified.

Mixed Species Description:
Northern Hardwoods Pulpwood includes: Balsam Fir 5%; Largetooth Aspen 20%; Paper Birch 20%; Red Maple 5%; Trembling Aspen 50%.

Season of Operations:
- Conduct sale operations on frozen soil conditions only, except with written permission from State.

Sale Conditions:
- Access is across state land.

Marketing Conditions:
Sale expiration date is longer due to the need for extensive freezing conditions to allow sale operability. Skid trail cut between gaps should be chosen to avoid cedar and yellow birch where possible. Species that need to be cut to get to gaps will be added with an added timber form.

Certification Note:
The timber on this tract is SFI and FSC certified.
