Highlights

• In 2018, all species and products stumpage sold by public agencies in Minnesota totaled 1.715 million cord equivalents with a value of \$45.623 million as compared to 1.692 million cord equivalents sold with a value of \$50.033 million in 2017. This amounts to a year-over-year volume increase of 23,044 cord equivalents or 1.4 percent and a year-over-year value decrease of \$4.410 million or 8.8 percent (Figure 1). In 2018, the average all species and products sell price was \$26.60 per cord equivalent compared to \$29.58 in 2017, a price decrease of \$2.97 per cord equivalent or 10.0 percent.

Figure 1: Volume sold by ownership category and average sell price per cord, 2009-2018. (a) a) Product categories: sawtimber, pulp & bolts, pulpwood, fuelwood, and biomass.

• In 2018, the average stumpage price received by public agencies for <u>all-species hardwood</u> <u>cord products decreased</u> to \$27.27 per cord from \$29.99 per cord in 2017, a <u>price</u> <u>decrease</u> of \$2.72 per cord or 9.1 percent. In 2018, the average public agencies <u>aspen</u> stumpage price received was \$32.20 per cord compared to \$35.36 per cord in 2017, a <u>price decrease</u> of \$3.16 per cord or 8.9 percent (Figure 2, Table 2, page 6).

Figure 2: Hardwood cord product prices by species group, 2009-2018. (a) a) Product categories: pulp & bolts and pulpwood only.

• In 2018, the average stumpage price received by public agencies for <u>all-species softwood cord products decreased</u> to \$23.07 per cord from \$26.45 per cord in 2017, a <u>price decrease</u> of \$2.12 per cord or 8.7 percent. In 2018, the average public agencies <u>red pine cord products stumpage price was \$35.95 per cord compared to \$39.03 per cord in 2017, a year-over-year <u>price decrease</u> of \$3.08 per cord or 7.9 percent. In 2018, the average public agencies <u>black spruce</u> cord products stumpage price was \$24.29 per cord compared to \$25.05 per cord in 2017, a year-over-year <u>price decrease</u> of \$0.76 per cord or 3.0 percent (Figure 3, Table 2, page 6).</u>

Figure 3: Softwood cord product prices by species group, 2009-2018. (a)

- a) Product categories: pulp & bolts and pulpwood only.
- b) Includes white pine through 2010.

• In 2018, the average stumpage price received by public agencies for <u>all-species</u> sawtimber increased to \$134.00 per Mbf compared to \$128.87 per Mbf in 2017, a year-over-year <u>price increase</u> of \$5.13 per Mbf or 4.0 percent. In 2018, the average price of <u>red pine sawtimber increased</u> to \$144.41 per Mbf compared to \$142.72 per Mbf in 2017, a <u>price increase</u> of \$1.69 per Mbf or 1.2 percent. In 2018, the average price of <u>oak sawtimber decreased</u> to \$194.63 compared to \$195.16 in 2017, a <u>price decrease</u> of \$0.53 per Mbf or 0.3 percent (Figure 4, Table 3, page 7).

Figure 4: Sawtimber stumpage prices by species group, 2009-2018. (a) a) Sawtimber units of measure include both Scribner log rule and cords converted to thousand board feet (Mbf) at two cords per Mbf.

b) Includes white pine through 2011.

Inflation Adjusted Stumpage Price Indices

The Implicit Price Deflator for Gross Domestic Product (GDP) is baseline inflation (all indices base year 2000=100). In 2018, the Inflation Index increased to 141.2, a 2.2 percent increase year-over-year. In 2018, the all-agencies <u>Aspen Cord Price Index decreased 8.9 percent</u> year-over-year to 116.6. The <u>Black Spruce Cord Price Index decreased 3.0 percent</u> year-over-year to 105.4. The <u>Red Pine Mbf Price Index increased 1.2 percent</u> year-over-year to 82.0. The <u>Mbf Composite Price Index increased 4.0 percent</u> year-over-year to 125.2 (Figure 5, Table 1).

Figure 5: Inflation adjusted public agencies stumpage price indices, 1990-2018.

Table 1: Public stumpage price indices and inflation, base year 2000 = 100.

Price Index	2014	2015	2016	2017	2018	Υ/Υ Δ	Υ/Υ Δ%

Historical Sales Volumes

In 2018, Minnesota public agencies sold 1,682,741 cord equivalents of sawtimber, pulp & bolts, and pulpwood compared to sales of 1,657,831 cord equivalents in 2017, a <u>sales volume increase</u> of 24,910 cord equivalents or 1.5 percent year-over-year (Figure 7, Table 5). In 2018, <u>aspen/balm of Gilead sold volume increased</u> to 869,353 cords from 830,713 cords in 2017, a 38,640-cord or 4.7 percent increase year-over-year. In 2018, <u>pine volume sold decreased</u> to 178,919 cord equivalents from 217,267 cord equivalents in 2017, a 38,348-cord or 17.7 percent decrease. In 2018, <u>spruce volume sold decreased</u> to 156,359 cords from 158,623 cords in 2017, a 2,264-cord or 1.4 percent decrease.

Figure 7: All public agencies volume sold by species group, 2009-2018. (a) a) Product categories: sawtimber, pulp & bolts, and pulpwood.

a) Product categories: sawtimber, pulp & bolts, and pulpwood only.

Data and Methods

This report presents average stumpage prices received by all Minnesota public agencies for the following product classifications: sawtimber, pulp & bolts, pulpwood, fuelwood, and biomass. All data are self-reported by individual agency representatives facilitated by a DNR-led survey. Price and volume data and summary analyses presented in this report may be useful for determining the total volume and value of stumpage sold and for comparing relative volumes and values of stumpage sold over time.

DISCLAIMER—Public agencies follow different fiscal years and there is some variability in sawtimber, bolt, and pulpwood specifications.

The reporting period for each agency is included as part of the agencies information. The fiscal year used by the counties is the same as the calendar year. The state's (Minnesota DNR Forestry) fiscal year runs from July 1 to June 30, but, to make the data reported more consistent with the other agencies, the timeframe for state data included in the report is for **CY2018**. Federal agencies (USFS and BIA) fiscal year runs from October 1 – September 30.

Federal agencies softwood sawtimber specifications include bolts to a six-inch top dib and hardwood bolts to an eight-inch top dib. Virtually all other agencies report pulp and bolts as a standalone product category for species that are frequently purchased by sawmills. Self-reported product category volumes and values are "normalized", at the discretion of the state forest economist, to account for variability in product specifications. In addition, some agencies report their data based on timber appraisal estimates from timber sales sold, while others report based on actual scale receipts from timber harvested and scaled. The reporting basis for each agency is noted in the report.

The reader should use caution when comparing the prices shown in this report with actual prices received or expected on a specific timber sale. Individual sale prices may vary significantly (± 30 percent or more) from the averages shown in this report due to variability in local markets, road access costs, haul distance, sale/site specific conditions, and operational constraints.

Definitions

Average price—mathematical average, equals total value divided by total volume for each listed species group and product classification.

Biomass—dead trees and logging residues including tops, limbs, and cull reported in green tons.

Board foot—a piece of wood 1" thick by 12" long by 12" wide.

Bolt—short length log, in the Lake States usually 100" in length with minimum 6" top dib. Depending on species and quality, may be suitable for the production of dimensional lumber (2x4s), industrial grade lumber (pallets), for manufacturing turned forest products, or for peeling.

Inflation Index—base year 2000=100, indexed to general price changes as measured by the Implicit Price Deflator for Gross Domestic Product (GDP) compiled by the U.S. Department of Commerce, Bureau of Economic Analysis.

Cord (**Standard**)—cubic volume measure 4-feet wide by 4-feet high by 8-feet in length, or equivalent containing 128 cubic feet of well stacked roundwood, including bark and air space, with an average of 79 cubic feet of solid wood. By state statute, fuelwood is measured in standard cords.

Cord (100-inch)—cubic volume measure 4-feet wide by 4-feet high by 8.3-feet (100-inch) in length, or equivalent containing 133.3 cubic feet of well stacked roundwood, including bark and air space, with an average of 82.3 cubic feet solid wood. In Minnesota, the vast majority of cord products are cut to 100-inch.

Mbf—one thousand board feet; stumpage volume measured using Scribner Decimal C log or tree scale.

Mbf Composite Price Index—base year 2000=100, volume weighted (total all-species MBF value divided by total all-species MBF volume) sawtimber price index.

MMbf—one million board feet; stumpage volume measured using Scribner log or tree scale.

Pulpwood—stem suitable for fiber used for paper and oriented strand board (OSB) manufacturing.

Pulp & Bolts—stem containing the mixed products of pulpwood and bolts.

Sawtimber—stem suitable for production of graded boards and/or dimension lumber.

Stumpage—value paid to a landowner to harvest standing timber.
