# 2012 Public Stumpage Price Review and Price Indices

Download from Minnesota DNR – Forestry at URL:

<http://www.dnr.state.mn.us/forestry/timbersales/stumpage.html>

## Highlights

In 2012, stumpage sold by public agencies totaled 1.69 million cords with a bid value of \$37.1 million as compared to 2011 with 1.96 million cords sold with a bid value of \$44.0 million, a year-over-year (y/y) volume decrease of 0.27 million cords or 13.7 percent and a y/y revenue decrease of \$6.9 million or 15.7 percent.

Average public stumpage prices received for all-species cord products declined to \$21.57 per cord in 2012 from \$21.88 per cord in 2011, a decrease of 1.4 percent.

In 2012, the public average stumpage price received for aspen was \$25.58 per cord as compared to an average \$25.55 in 2011 (Figure 1).

The public average pine pulp & bolts stumpage price was \$31.23 per cord in 2012 as compared to \$33.33 per cord in 2011, a y/y decrease of 6.3 percent (Figure 2).

Figure 1. Hardwood pulp & bolts prices, nominal dollars per cord.

Figure 2. Softwood pulp & bolts prices, nominal dollars per cord.

For information about the Minnesota Stumpage Price Review, contact: Don Deckard, State Forest Economist, Minnesota Department of Natural Resources, Division of Forestry, 500 Lafayette Road - Box 44, St. Paul, Minnesota 55155-4044. Email: [donald.deckard@state.mn.us](mailto:donald.deckard@state.mn.us); Office: (651) 259-5287.

### Highlights - continued

In 2012, a total 16.1 MMBF of sawtimber was sold by public agencies as compared to 16.4 MMBF sold in 2011, a year-over-year volume decrease of 1.8 percent.

The all-species public average sawtimber stumpage price was \$121.59 per MBF in 2012 as compared to \$145.88 per MBF in 2011, a year-over-year decrease of 16.7 percent (Figure 3).

Figure 3. Sawtimber stumpage prices, nominal dollars per mbf.

### Stumpage Price Indices

Using the Implicit Price Deflator for Gross Domestic Product (GDP) as baseline inflation (base year 2000=100), the all-agencies all-species Pulpwood Composite Price Index increased from 99.5 in 2011 to 100.2 in 2012, a 0.7 percent increase. The Pulp & Bolts Composite Price Index decreased from 99.4 in 2011 to 93.6 in 2012, a decrease of 5.9 percent. The MBF Composite Price Index decreased from 136.3 in 2011 to 113.6 in 2012, a 16.7 percent decrease (Figure 4).

Figure 4. Inflation and Public Stumpage Price Indices, 1980 – 2012.

## Methods and Definitions

### Methods

This report contains average stumpage prices received by all Minnesota public agencies for the following product classifications: sawtimber, pulp & bolts, pulpwood, fuelwood, and biomass. Information presented may be useful for determining the total volume and value of stumpage sold and for comparing relative volumes and values of stumpage sold during the reporting period by public agencies in Minnesota.

Public agencies have different fiscal years. The reporting period for each agency is included as part of the agencies information. Federal agencies (USFS and BIA) fiscal year runs from October 1 – September 30. The state's (Minnesota DNR) fiscal year runs from July 1 – June 30, but to make the data reported more consistent with the other agencies, the time period for state data included in the report is for CY2012. The fiscal year used by the counties is the same as the calendar year. Some agencies report their data based on timber appraisal estimates from timber sales sold, while others report based on actual scale receipts from timber harvested and scaled. The reporting basis for each agency is noted in the report.

**DISCLAIMER:** The timber sales data includes different products and units of measure by species. Reported volumes and values are adjusted to account for variability in product specifications at the discretion of the state forest economist. The reader should use caution when comparing the prices shown in this report with actual prices received or expected on any specific timber sale. Individual sale prices may vary significantly from the averages shown in this report because of variability in both economic and physical conditions.

### Definitions

**Average price:** volume weighted (mean) total value divided by total volume for each listed species/product group.

**Biomass:** logging residues including tops, limbs, and cull pieces.

**Board foot:** a piece of wood 1" thick by 12" long by 12" wide.

**Bolt:** short length log, in the Lake States usually 100" in length with minimum 6" top diameter. Depending on species and quality, may be suitable for the production of dimensional lumber (2x4s), industrial grade lumber (pallets), for manufacturing turned forest products, or for peeling.

**Inflation Index:** Base year 2000=100, indexed to general price changes as measured by the Implicit Price Deflator for Gross Domestic Product (GDP) compiled by the U.S. Department of Commerce, Bureau of Economic Analysis.

**Cord:** unit of cubic volume measure 4-feet wide by 4-feet high by 8-feet in length, or equivalent, containing 128 cubic feet of well stacked roundwood, including bark and air space.

**MBF:** one thousand board feet; stumpage volume measured using **Scribner** log or tree scale.

**MBF Composite Price Index:** Base year 2000=100, volume weighted (total all-species MBF value divided by total all-species MBF volume) sawtimber price index.

**MMBF:** one million board feet; stumpage volume measured using **Scribner** log or tree scale

**Pulpwood:** stem suitable for fiber used for paper and oriented strand board (OSB) manufacturing.

**Pulpwood Composite Price Index:** Base year 2000=100, volume weighted (total all-species pulpwood value divided by total all-species pulpwood volume) price index.

**Pulp & Bolts:** stem containing the mixed products of pulpwood and bolts.

**Pulp & Bolts Composite Price Index:** Base year 2000=100, volume weighted (total all-species pulp & bolts value divided by total all-species pulp & bolts volume) price index.

**Sawtimber:** stem suitable for production of graded boards and/or dimension lumber.

**Stumpage:** value paid to a landowner to harvest standing timber.

## 2012 SUMMARY TABLE – ALL MINNESOTA PUBLIC AGENCIES

All Agencies Reporting Period: 2012 Reporting Basis: Variable

Species Name	Sawtimber		Pulp and Bolts		Pulpwood		Fuelwood		Biomass	
	MBF	Avg Price	Cords	Avg Price	Cords	Avg Price	Cords	Avg Price	Tons	Avg Price
Aspen	51.0	\$53.48	0.0	\$0.00	816,708.2	\$25.58	46.0	\$2.30	2,550.5	\$1.00
