

**Terrestrial Vertebrate Wildlife Species
Nashauk Uplands ECS Subsection**

Information Source: The following information has been summarized from ongoing efforts of the Minnesota Gap Analysis Project (MN-GAP), a project to provide a statewide assessment on the conservation status of native vertebrate species and natural land cover types.

Species Criteria: Species criteria for Mn-GAP includes the following: 1) Be known to breed in Minnesota (evidence of breeding 5 of the past 10 years) and be a regularly occurring non-accidental, 2) Be listed as state endangered, threatened, or special concern or as federally endangered or threatened, 3) Be listed as a furbearer, big game, small game, or migratory bird in Minnesota, and, 4) Be an exotic species in Minnesota that impacts native species or is of management interest.

Species Group: Notes one of four major species groups for the 206 species found in this ECS Subsection: Amphibians (n=12), Reptiles (n=4), Birds (n=143), and Mammals (n=47).

Species Common and Scientific Names: Notes standard MN-GAP protocol based on NatureServe and it's related searchable plant, animal and ecological database called NatureServe Explorer located at www.natureserveexplorer.org.

Minnesota Legal Status: E = State Endangered; T = State Threatened; SC = State Species of Special Concern; BG = Big Game; SG = Small Game; F = Furbearer; MW = Migratory Waterfowl; UB = Unprotected Bird; PB = Protected Bird; PWA = Protected Wild Animal; UWA = Unprotected Wild Animal. Note: A species may have more than one Minnesota Legal Status notation.

Federal Legal Status: T = Federal Threatened; E = Federal Endangered; P = Federal Protection by the Migratory Bird Treaty Act or Bald Eagle Protection Act or CITES.

Range Status: Notes a species range modifier to this ECS Subsection: B = Breeding or PR = Permanent Resident. Also, an (L) may be listed with these range codes if the species has a limited distribution in the Subsection due to specific habitat needs. Note: These range notations by ECS subsections represent the current occurrence of these wildlife species based on ECS subsections. Animal distributions are dynamic and revisions may be made as new information becomes available.

DISCLAIMER: Information and data listed in this table has been produced by ongoing wildlife species assessment efforts conducted under various programs within the MNDNR Division of Fish and Wildlife, Wildlife Management Section. These efforts and related tables noted here are initial products that are currently in various stages of literature and expert review. Review and comments on these tables and contents is encouraged. Please contact the MNDNR Division of Wildlife at 218-833-8620 for comments or suggestions.

Range

Status	Species Common Name	Scientific Name	Federal Legal Status	MN Legal Status

AMPHIBIANS

PR	Blue-spotted Salamander	<i>Ambystoma laterale</i>		
PR	Tiger Salamander	<i>Ambystoma tigrinum</i>		
PR	Redback Salamander	<i>Plethodon cinereus</i>		
PR	Eastern Newt	<i>Notophthalmus viridescens</i>		
PR	American Toad	<i>Bufo americanus</i>		PWA
PR	Gray Treefrog	<i>Hyla versicolor</i>		PWA
PR	Western Chorus Frog	<i>Pseudacris triseriata</i>		PWA
PR	Spring Peeper	<i>Pseudacris crucifer</i>		PWA
PR	Green Frog	<i>Rana clamitans</i>		PWA
PR	Northern Leopard Frog	<i>Rana pipiens</i>		PWA
PR	Mink Frog	<i>Rana septentrionalis</i>		PWA
PR	Wood Frog	<i>Rana sylvatica</i>		PWA

12 Amphibians

REPTILES

PR	Snapping Turtle	<i>Chelydra serpentina</i>		PWA, SC
PR	Painted Turtle	<i>Chrysemys picta</i>		PWA
PR	Redbelly Snake	<i>Storeria occipitomaculata</i>		
PR	Common Garter Snake	<i>Thamnophis sirtalis</i>		

4 Reptiles

BIRDS

B	Common Loon	<i>Gavia immer</i>	P	PB
B	Pied-billed Grebe	<i>Podilymbus podiceps</i>	P	PB
B	Red-necked Grebe	<i>Podiceps grisegena</i>	P	PB
