

# DNR SAMPLE REQUEST FORM

The right to take from the State's Drill Core Library a sample of drill core for the purpose of analysis carries with it the responsibility to submit the results to the DNR, and those results will become public data (see details of the state laws on a separate document). The DNR tracks the sample information through the use of this digital form and a related database. You must, before you leave the Drill Core Facility, fill in this form completely to be granted the right to take the samples. There are two simple steps:

- 1) Fill in the form completely. If you have questions, please contact Matt Carter at 218-231-8445.
- 2) Press the "Submit by E-mail" button.

**note:** Complete and submit a separate digital form for each exploratory boring/drill hole you sample.

**Please answer all questions and input additional information when asked.**
