

# CLOQUET RIVER STATE WATER TRAIL

## MAP 2 - INDIAN LAKE TO ISLAND LAKE

**mn MINNESOTA**  
STATE PARKS AND TRAILS

## ABOUT THE WATER TRAIL

This stretch of the Cloquet River offers vast forested banks and a remote, primitive feel. Paddle past red and white pines, fir, spruce, aspen and birch as the river makes its way to the St. Louis River.

Medium to heavy stream flow is best for an enjoyable run through the river's rapids. Stream flow is usually high during spring runoff and typically falls throughout the summer. The river above Island Lake can rise quickly after heavy rains and take 3 to 7 days to return to normal flow. The rapids in this area may only be runnable after heavy rains.

Within the river is a diverse fish population with abundant northern pike, walleye and brook trout. You may also spot painted, snapping and wood turtles. To protect their eggs, avoid trampling sandy areas.

Hazards include Class I-III rapids. Portages are available for Class II rapids and up and should be used by beginners. Always get out and scout the rapids before proceeding.

Check river flow before your trip for a pleasant paddle.

## CONTACTS

**DNR INFORMATION CENTER**  
500 Lafayette Rd.  
St. Paul, MN 55155-4040  
(888) 646-6367  
[info.dnr@state.mn.us](mailto:info.dnr@state.mn.us)

**DNR AREA OFFICE**  
1568 Hwy 2  
Two Harbors, MN 55616  
(218) 834-1420

## TRIP PLANNING AND SAFETY

- Plan your trip with a map before you leave. Tell someone your plans, including put-in and take-out times.
- Travel with a companion or group.
- Most people paddle 2-3 river miles per hour.
- River levels can affect your speed and trip safety. Check conditions at [mndnr.gov/river\\_levels](http://mndnr.gov/river_levels).
- Don't underestimate the power of wind and waves, especially on large lakes.
- Be cautious of obstacles in the river and avoid overhanging and dead trees.
- Bring clean drinking water and a waterproof container with a first aid kit, waterproof matches and extra clothes.
- Wear a life jacket at all times while on the water.
- Purchase a license for your non-motorized watercraft if it's more than 10 feet in length. If you're not from Minnesota, check your state's watercraft license laws.

## WATERCRAFT CAMPING

- Camp only in designated campsites, which are often available on a first-come, first-served basis. State and national forests do allow dispersed camping. Be sure to check regulations before your trip.
- Riverbed camping next to private property is not permitted.
- Stay off private property. Stop only at designated sites; much of the shoreland is private property.
- Be sanitary! Use designated toilet facilities or bury human waste away from the river.
- Follow the rules for firewood. State forests allow you to gather dead wood for a fire, but state parks do not.

## MEDICAL

**ST. LUKE'S HOSPITAL**  
915 East First St.  
Duluth, MN 55805  
(218) 249-5616

**ST. MARY'S MEDICAL CENTER**

**LAKE VIEW HOSPITAL**  
325 Eleventh Avenue  
Two Harbors, MN 55616  
218-834-7300

**IN AN EMERGENCY CALL 911**

## RECOMMENDED DAY TRIP

### Indian Lake Access to Bear Lake Road

- Put-in location: River mile **71.8**
- Take-out location: River mile **61.5**
- Length: **10.3** river miles

Paddle this narrow, northern stretch of the river and enjoy wooded banks on either side. Expect a set of Class II rapids halfway along your route with an option to run them or portage around. Watch for bald eagles, deer and even otter. You'll find several public campsites, allowing you to turn this into a longer trip if desired.

## EXPLORE ON SHORE

### Watercraft Campsites (DNR)

In this section, you'll find numerous primitive watercraft campsites on property managed by the Minnesota Department of Natural Resources. These sites are available on a first-come, first-served basis and do not require a fee. Camp during a longer trip or simply stop for a picnic meal (if unoccupied).

## PROTECT THE RIVER

Your experience on the river depends on a healthy environment. As you explore the beauty of this waterway, also do your best to protect it.

### Protect Your Waters

Before launching...before leaving

- Clean off aquatic plants and animals.
- Drain all water away from the landing.
- Dispose of unwanted bait in the trash.

[mndnr.gov/invasives/aquatic](http://mndnr.gov/invasives/aquatic)

### Buffer Protection

The Minnesota buffer law establishes new vegetation buffers along rivers, streams and ditches to help filter out chemicals and sediment before they reach waterways.
