ROOT RIVER STATE WATER TRAIL

MAP 1 - CHATFIELD TO RUSHFORD

m MINNESOTA
STATE PARKS AND TRAILS

ABOUT THE ROOT RIVER WATER TRAIL

The Root River maintains a timelessness as it represents some of the finest scenic and historic qualities which characterize southeastern Minnesota. Formed of two branches in the west, the North and the Middle, the Root River winds past towering bluffs topped with oak and hickory. Joined above Whalan by the South Branch, a tributary which flows from Mystery Cave, the river continues its way past bluffs and outcrops until Rushford.

Though the watershed has many spring-fed, clear water tributaries, including the South Branch, the Root River is somewhat cloudy due to erosive soil types in the watershed. The Root River's superlative scenery and characteristics make it suitable for many types of recreation.

Several towns along the Root River offer historic sites, services and hospitality to river users. Other pastime favorites along the river are bird watching, nature observation, bicycling along the Root River State Trail, and fishing.

An old power station is a fun sight along the river.

TRIP PLANNING AND SAFETY

- Plan your trip with a map before you leave. Tell someone your plans, including put-in and take-out times.
- Travel with a companion or group.
- Most people paddle 2-3 river miles per hour.
- River levels can affect your speed and trip safety. Check conditions at mndnr.gov/river_levels.
- Don't underestimate the power of wind and waves, especially on large lakes.
- Be cautious of obstacles in the river and avoid overhanging and dead trees.
- Bring clean drinking water and a waterproof container with a first aid kit, waterproof matches and extra clothes.
- Wear a life jacket at all times while on the water.
- Purchase a license for your non-motorized watercraft if it's more than 10 feet in length. If you're not from Minnesota, check your state's watercraft license laws.

WATERCRAFT CAMPING

- Camp only in designated campsites, which are often available on a first-come, first-served basis.
- Riverbed camping next to private property is not permitted.
- Stay off private property. Stop only at designated sites; much of the shoreland is private property.
- Be sanitary! Use designated toilet facilities or bury human waste away from the river.
- Follow the rules for firewood. State forests allow you to gather dead wood for a fire, but state parks do not.

AREA OVERVIEW

RECOMMENDED DAY TRIP

Moen's Bridge to Whalan

- Put-in location: River mile **65.3**
- Take-out location: River mile **49.5**
- Length: **15.8** river miles

This stretch takes you through state forest, passes by the Eagle Bluff Environmental Learning Center and finishes off in the quaint town of Whalan.

Parsley Bridge to Moen's Bridge

- Put-in location: River mile **78.6**
- Take-out location: River mile **65.3**
- Length: **13.3** river miles

This beautiful, easy stretch takes you through a mix of forest and pasture land.

EXPLORE ON SHORE

Towns along the way

Chatfield, Preston, Lanesboro, Whalan, Peterson and Rushford all have great amenities, including food stops, shopping boutiques, overnight lodging and museums. Preston is also home to the National Trout Center.

Eagle Bluff Environmental Learning Center

Eagle Bluff offers a wide variety of recreation opportunities, with 9 miles of hiking trails, a visitor center, numerous geocaches and bird habitat "hot spots".

PROTECT THE RIVER

Your experience on the river depends on a healthy environment. As you explore the beauty of this waterway, also do your best to protect it.

Protect Your Waters

Before launching...before leaving

- Clean off aquatic plants and animals.
- Drain all water away from the landing.
- Dispose of unwanted bait in the trash.

mndnr.gov/invasives/aquatic

Buffer Protection

The Minnesota buffer law establishes new vegetation buffers along rivers, streams and ditches to help filter out chemicals and sediment before they reach waterways.

mndnr.gov/buffers
