ABOUT THE PARK

Immerse yourself in rich natural communities and diverse landscapes during a trip to Frontenac State Park. Experience over 2,600 acres of bluffs, prairie, floodplain forests and hardwood forest. The area's resources have drawn civilizations since 400 B.C. when the Hopewell culture was here. Later, the area was used for fur trading, stone quarrying and farming. Visit the park in spring or fall and you'll be in one of the best spots in the country to view bird migrations. Hikers and skiers can also enjoy spectacular views of the river valley and Lake Pepin.
