ABOUT THE PARK

Experience over 10,000 acres of hardwood forest, pine stands, lakes and wetlands within the park. View the Rum River as it flows through the park from its source on the southwest shore of Mille Lacs Lake. For thousands of years people have chosen this abundant landscape as a premier location to harvest resources and to live. Archaeologists have identified over 30 significant sites within the park, indicating over 9,000 years of human interaction with the landscape. The park is recognized as a National Historic Landmark to commemorate the meeting of French explorers and Dakota villagers in the 1600s. The designation also recognizes Kathio as the ancient homeland of the Mdewakanton Dakota nation and the historic homeland of the Mille Lacs Band of Ojibwe nation. Learn more about this rich history as you explore the park.

Soak in the scenery from the top of the park's fire tower.

TRAIL HIGHLIGHTS

Landmark Trail

Mostly flat • Gravel

1-mile loop

Hike to the sites of former American Indian villages to learn more about the history of the area. Loop back on a walk through a living timeline of forest types that have covered the park's landscape over thousands of years.

Touch the Earth Trail

Mostly Flat • Gravel • Boardwalk

0.5-mile loop

This self-guided interpretive trail offers a boardwalk through a section of bog with stops along the way to discover more about the park's unique natural resources.

Glacial Ridge Trail

Hilly • Rough terrain • Packed dirt • Wooden bridges

1.2-mile loop

Appreciate spring wildflowers or beautiful fall colors as you hike near a beaver pond and through a mixed hardwood forest.

Black Bass Trail

Hilly • Gravel

1.5 miles one-way or 4.5-mile loop

Hike into the remote and scenic Black Bass Lake, a designated Heritage Lake (special regulations apply). Anglers may either fish from shore or from a rented canoe. Visit in fall and experience migrating waterfowl.
