ABOUT THE PARK

Moose Lake State Park was created in 1971 to offer additional camping opportunities in the area. Visit and you'll find so much more. Go for a quiet paddle on the lake or cast a line for bass, northern pike and panfish. Pack a picnic lunch and relax, swim or watch for wildlife along the shores of Echo Lake. The lake itself was formed by large, melting blocks of ice left by the last glaciers. If minerals interest you, stop by the Agate and Geological Center for impressive displays.

Enjoy all the lake has to offer.

TRAIL HIGHLIGHTS

- | | |
|---|---------------|
| Wildlife Pond Trail
Rolling hills • Mowed grass
Stroll through wooded and prairie habitats as you watch for migrating songbirds, nesting ducks, geese and trumpeter swans. Butterflies abound in the meadows, field edges and hardwood stands. | 1.2-mile loop |
| Rolling Hills Trail (Hiking Club)
Rolling hills • Mowed grass
Begin your hike beneath tall pines and eventually make your way through both wooded and prairie habitats. | 1.5-mile loop |
| West Echo Lake Trail
Some hills • Packed dirt • Mowed grass
This trail heads west from the picnic area along the lakeshore and then up a wooded hillside that overlooks Echo Lake. Splendid sunrise vistas await the early morning hiker. | 0.9-mile loop |
