Moose Lake State Park was created in 1971 to offer additional camping opportunities in the area. Visit and you’ll find so much more. Go for a quiet paddle on the lake or cast a line for bass, northern pike and panfish. Pack a picnic lunch and relax; swim or watch for wildlife along the shores of Echo Lake. The lake itself was formed by large, melting blocks of ice left by the last glaciers. If minerals interest you, stop by the Agate and Geological Center for impressive displays.

**TRAIL HIGHLIGHTS**

**Wildlife Pond Trail**
- 1.2-mile loop
- Rolling hills • Mowed grass
- Stroll through wooded and prairie habitats as you watch for migrating songbirds, nesting ducks, geese and trumpeter swans. Butterflies abound in the meadows, field edges and hardwood stands.

**Rolling Hills Trail (Hiking Club)**
- 1.5-mile loop
- Rolling hills • Mowed grass
- Begin your hike beneath tall pines and eventually make your way through both wooded and prairie habitats.

**West Echo Lake Trail**
- 0.9-mile loop
- Some hills • Packed dirt • Mowed grass
- This trail heads west from the picnic area along the lakeshore and then up a wooded hillside that overlooks Echo Lake. Splendid sunrise vistas await the early morning hiker.

**MORE TO EXPLORE AT THE PARK**
- Bicycle the nearby Willard Munger State Trail to Hinckley or Duluth.
- Checkout a free fishing kit, birding kit, GPS unit or Kid’s Discovery Kit from the park office.
- Rent a canoe, kayak or boat from the park office.
- Pack a picnic lunch and enjoy lake views.
- Stay overnight at a drive-in campsite, walk-into campsite or group camp. Call 866-857-2757 or visit MNDNR.GOV/RESERVATIONS to reserve.
