ABOUT THE TRAIL

The Paul Bunyan State Trail is 123 miles long, not including short on-road connections through the city of Baxter. Extending all the way from Crow Wing State Park to Lake Bemidji State Park, it is the longest of Minnesota's state trails and the longest continuously paved rail-trail in the country.

Most of trail follows the former Burlington Northern Railroad grade and is generally level and wheelchair accessible. The exception is a challenging, 9-mile stretch with many hills and curves on the northern trail segment (see the Hackensack to Lake Bemidji trail map for details).

Enjoy forests, lakes, streams and communities during your travels. Many towns along the trail are popular vacation destinations with trail access points, rest areas and other services.

You can connect with the paved Heartland State Trail from the Paul Bunyan State Trail between Akeley and Walker to the north. At the north end of Lake Bemidji State Park, snowmobilers can connect to hundreds of miles of trails.
