The DNR Information Center is available to provide free publications of facilities and services as well as answers pertaining to DNR recreational opportunities in Minnesota.

Minn-Data (888-MINN-DNR) allows researchers to analyze DNR aquatic life data including fish, wildlife, and plant surveys. The data is available to researchers and the general public for use in research, education, and management.

Accessing the data is easy. You can choose to access the data via the internet or through the DNR's internal network. You can also request the data in printed format or on CD-ROM.

For more information on how to access Minn-Data, please contact the DNR Information Center at 651-296-6157 or mndnr.gov.

The DNR is committed to providing the highest quality and accuracy of data for all stakeholders. We encourage you to use the data for your research and educational purposes.
