

Permit for the Use of Endangered or Threatened Species for an Educational Activity

Permit Application

An application for a permit for an educational activity must include the following:

- Name, street address, phone number and email address of the applicant
- Endangered or threatened species proposed for taking
- Number of specimens that would be taken
- Proposed source of the specimens
- Facilities and methods for care, exhibition, and/or storage of specimens
- Purpose, scope, schedule, and expected outcomes of the educational activity
- A summary of educational activities that the applicant is currently conducting
- Qualifications and experience of the applicant to conduct educational activities and to care for the specimens

Annual Report

Permits required submission of an annual report to the DNR. Failure to submit the report may result in denial of future permit requests.

Criteria for Reviewing Permit Application

- The application demonstrates that the educational activity will foster the conservation of the species and result in a net benefit to the species.
- The application demonstrates why the educational activity requires the use of an endangered or threatened species.
- The application demonstrates that the applicant is qualified to conduct the proposed educational activity and to care for the specimens.

Submit Permit Application

Permit application may be submitted electronically or by mail.

Electronically

Send to Bridget Henning-Randa at bridget.henning-randa@state.mn.us.
