

Create a Map Gallery Slide Show: mndnr.gov/whaf/explore

- 1 Create a thumbnail of your map** - To save a map layout, click the camera icon. This will open the gallery and add a thumbnail.
- Create another map for your slide show:**
 - 2 Add data layers** - Display related features.
 - 3 Add watershed health scores** - Display patterns of health.
 - 4 Change spatial scale** - Zoom, mask or outline related spatial scales.
- 5 Add titles and re-order thumbnails** - Add a title for each map, this also creates a caption for the slide show. Map thumbnails can be re-ordered by clicking and dragging, or removed with the "x".
- 6 Click Slide Show to open** - Your content is ready, click 'slide show' button to view. The slide show title can be changed to match your presentation. Click 'close' in the upper right to return to the interactive WHAF map.
- 7 Close Map Gallery** - Close the map gallery by clicking the "x" next to the Slide Show button - *but before you do* - think about bookmarking maps you want to save and re-open. See tip sheet "Create and Share Bookmarks" for more information on saving and sharing your WHAF explorations.
