

**CROW WING COUNTY (18)**

Number of lakes. . . . . 416  
 Lake area, acres. . . . . 101,769

Most of the lake basins in Crow Wing County were formed from ice blocks deposited in glacial outwash or till associated with the St. Croix moraine. There are, however, basins of many different origins in the county as illustrated by the following examples:

Origin	Ident. no.	Name	Remarks
Ice block basins in outwash plain	18-242	Upper Mission	The most common type of basin including many of lakes west of Mississippi River.
	18-378	Lower Hay	
Ice block basins in outwash localized by a preglacial valley	18-136	Long	Along Nokasippi River valley.
Ice block basins in glacial till	18-293	Kego	In morainal areas along eastern and northern boundaries of county
	18-20	Borden	
Esker troughs	18-76	Long	In region of long sinuous gravelly ridge in southeastern part of county.
Ice block basins partly in glacial till and partly in glacial outwash	18-294	Mitchell	In north-central part of county.
Isolation of a small bay on a larger lake.	18-401	Hole-in-the-Day	Formed by isolation of a small bay of Gull, 11-305.
An oxbow lake	18-238	Half Moon	Meander of Mississippi River cut off from main stream.
Mining operations Old mine pit	18-119	Roe	

Large lakes entirely within the county are:

Ident. no.	Name	Area, acres
18-308	Pelican	8,468
18-310	Whitefish	7,969
18-372	Long	6,178
18-305	Edward	2,844
18-34	Bay	2,435
18-312	Cross	1,884
18-373	Round	1,706
18-315	Big Trout	1,486
18-136	Long	1,380
18-375	Hubert	1,344
18-90	Serpent	1,154
18-20	Borden	1,038

(continued)

There are several chains of lakes in the county which are parts of two federal reservoir systems. The Pine River system was originally completed in 1886 and the Gull Lake system in 1913. Lakes included in each reservoir system are listed below:

Pine River reservoir system		Gull Lake reservoir system	
Control structure for system is located at outlet of Cross Lake		Control structure for system is located at outlet of Gull, 11-305	
Ident. no.	Name	Ident. no.	Name
18-312	Cross	18-373	Round
18-266	Little Pine		
18-268	Loon	18-376	Upper Cullen
18-269	Island		
18-270	Hen	18-377	Middle Cullen
18-271	Daggett		
18-288	Ox	18-398	Roy
18-310	Whitefish		
18-311	Rush	18-399	Nisswa
18-354	Pig		
18-356	Clamshell	18-403	Lower Cullen
18-366	Arrowhead		
18-378	Lower Hay		
18-412	Upper Hay		

A private reservoir is located near Brainerd. This reservoir, Rice, 18-145, was formed as a result of construction of a dam across the Mississippi River. The original dam was built in 1881. The reservoir is presently used to pond water for a hydropower operation for a paper mill plant.
