

BEAR BAIT STATION REGISTRATION

Only three baits may be registered for each licensed bear hunter. If multiple people are hunting together, and more than 3 baits are being placed, a separate bait registration form must be submitted.

DIRECTIONS: Please clearly PRINT all information. Provide information below for each bait station you establish. You must use Township/Range/Section to register your baits. GPS coordinates may also be added to further identify locations but you must use T/R/S to comply with the law.

Definitions: Township=North/South coordinates; Range=East/West coordinates; Section = #1-36. Township, Range, and Section information is available on a county highway map available from the Minnesota Bookstore 651-297-3000, or the Department of Transportation 651-296-2216 (fee).

This form **must be mailed no later** than the next postal service day following establishment of the bait station. Refer to the map on page 12 to find the location of your bait station within the appropriate cross-hatched area. Mail your form to the address listed below that area.

PLEASE PRINT

Name (Last, First, MI)	Telephone (include area code)
