### Harvest, Designation and Winter Severity Index (WSI)

## Wildlife Manager Report

Deer Permit Area (DPA) 210 includes portions of eastern Polk, western Clearwater, and the very southeast corner of Red Lake County. Landcover is a mix of 34% agriculture, 28% grasslands and wetlands, and 30% brushlands and woodlands. The public input goal established in 2022 was to stabilize the herd at 2021 levels. Current modeling indicates that deer density has the potential to increase rapidly, but the moderately severe winters of 2021 and 2022 noticeably reduced the deer herd--as shown by the 2022 and 2023 harvest data. The past two mild winters have helped this deer population rebound and it appears to be at or near goal. To help maintain the current deer density, an Either-Sex limit will be offered for the 2025 deer season.
