Wildlife Manager Report

Deer Permit Area (DPA) 604 is designated as a CWD Management Zone and has been since 2019. This area contains both pine and hardwood forests with lakes dotting the landscape and contains a mix of private and public lands. Recent goal setting for this deer permit area established a goal to stabilize the deer population. Buck harvest numbers for the past 3 years indicate this population is stable. With a relatively mild winter last year, I expect the herd is in good condition and can sustain a 2-deer limit again this fall.
