Mamnuucida quudinta cowsha

Aagaga lagu arkay CWD waxa laga mamnuucay in cowsha la soo jiito ama la quudiyo. Ka hel faahfaahin iyo khariidad bogga 89 aad ee Xeerarka ugaarsiga iyo Dabitaanka ee 2025.

Xayiraadaha Qaadashada bakhtiga

In la raro dhammaan bakhtiyada ee Minnesota wuu ka xaddidan yahay xaaladaha qaar. Bakhtiyada oo dhan waxaa lagu qeexaa sida kuwa leh madaxa, oo leh unuga maskaxda, iyo tiirarka lafdhabarta ee cowsha.

Raqda dhammaystiran ee ugaadha, oo ay ku jiraan noocyada deerada, elk iyo moose, ee laga soo ugaarsaday meel ka baxsan Minnesota lama keeni karo gobolka marka laga reebomarka madaxa laga soo gooyey ugaadha iyada oo wadata ama aan wadanin kurka qaarka hore iyo qoorta ayaa loo soo safrin karaa Minnesota kaliya haddii loo geeyo farsamayaqaanka hargaha oo shati haysta 48 saacadood gudahooda marka ay soo galaan gobolka; ama uu wato qof aan deganayn ee safrinaya raq isku wada taalla ama qayb ah ee safar ku maraysa Minnesota ayaa laga dhaafay xayiraadan. Hilibka ama qaybaha rubucyada deerada ayaa lala soo geli karaa gobolka.

Dhammaan raqda deerada ee laga soo ugaarsaday aagga maaraynta CWD (sida ka muuqata khariidadaha 1 iyo 2) waa inay sii joogaan aaggaas gaarka ah ilaa baaritaan lagu xaqiijinayo " in aan cudur laga helin". Madaxyada laga googeyey ugaadha ee laga soo ugaarsaday Aaga Maaraynta CWD iyada oo wadata ama aan wadanin kurka qaarka hore iyo qoorta ayaa loo safrin karaa meelaha ka baxsan aagga maamulka CWD kaliya haddii loo geeyo farsamayaqaanka hargaha oo shati haysta 48 saacadood gudahooda marka ay ka baxaan aagga maamulka CWD. Hilibka ama qaybaha deerada ayaa sidoo kale isla markiiba lagala bixi karaa aagga.

Ma jiraan wax xaddidaad ah safrinta raqda deerada laga soo ugaarsaday Minnesota meelaha ka baxsan aagagga maaraynta CWD.

Goobaha qashin-qubka DNR ay haysto, halkaas oo ugaarsatadu ay tuuri karaan hadhaaga raqda deerada, ayaa lagu liisteeyey khadka internetka ee mndnr.gov/deerhunt.

Macluumaad dheeraad ah oo ku saabsan xayiraadaha safrinta raqda ayaa waxaa laga heli karaa bogga 80 ee Xeerarka ugaarsiga iyo dabinka 2025.
