306-19-06

## YEAR:

2004

## **GRANTEE:**

Arrowhead Regional Development Commission

#### **COUNTY:**

Lake

## **CATEGORY:**

Land Use, Planning & Development

## **GRANT AWARD:**

\$15,000

## TOTAL PROJECT COST:

\$20,056

# BEAVER BAY CONCEPTUAL DESIGN

Beaver Bay is the oldest community on the North Shore. The community desired a plan to focus on creating an enhanced identity for the City, while solving some circulation and access issues.

At the onset of the project, a community focus group was established. Much of the focus was centered on the concept of a trail head site and roadside stop to create multi-use open green space to serve the Gitchi Gami Trail, North Shore Scenic Byway, and the Beaver Bay Community.

The following were the four priority design opportunities in Beaver Bay identified by the focus group and local community:

A map identifying the location of the four key design opportunity areas

- 1. A gateway at the west entrance into the community
- 2. A civic space as a setting for the Beaver Bay Community Center
- 3. Highway 61 street scapes to reinforce the community identity
- Creating a Gitchi Gami Trailhead and rest stop for the North Shore Scenic Drive as a focal point of the City's east end

Overview of the east end trail head/rest stop design

## FOR MORE INFORMATION

Minnesota's Lake Superior Coastal Program 1568 Highway 2 Two Harbors, MN 55616 (218) 834-6612 www.dnr.state.mn.us/waters/lakesuperior

The mission of Minnesota's Lake Superior Coastal Program is to preserve, protect, restore and enhance coastal resources for present and future generations. We provide technical and financial assistance for local communities to balance protection of coastal resources with providing residents and visitors places to work, live and play.
