DEPARTMENT OF NATURAL RESOURCES

Water Supply Plan due dates

Public water suppliers in the seven-county Twin Cities metropolitan area and certain communities on the edges of the metro have due dates assigned below.

Public water suppliers in Greater Minnesota serving over 1,000 people will not have due dates before 2028, and the DNR will provide those specific dates.

NOTE: Public water suppliers requesting an amendment to their water appropriation permit will be required to submit an updated water supply plan and receive approval before the DNR can approve an amendment.
