Address	
Phone Number	
Email	

This is to certify that I am a qualified professional engineer licensed to practice in the State of Minnesota (or a qualified professional using standard engineering practices). It is to further certify that the attached hydraulic analysis, report, or technical memorandum supports the determination that the proposed project (when also considering the cumulative effects of previous encroachments) will not increase the 1% annual chance flood elevation by more than 0.5 feet and will not impact any insurable structures.
