

DNR Local Governments Forum – May 17, 2023  
Culverts & Crossings Part II: Higher Standards & Approaches

Agenda

- Welcome & Introduction
- Presentation & Discussion on Culverts & Crossings, featuring:
  - Karl Koller, DNR Clean Water Specialist, will discuss the design and impacts of culverts and crossings on organic/critter/fish passage.
  - Kim Boland, DNR Area Hydrologist, will discuss coordination with local governments on culverts, in particular coordination with St. Louis County and the fish passage condition on the County's General Permit.
  - Sam Cook, Environmental Project Manager, St. Louis County Public Works, will discuss culvert and crossing projects in the county and the county's efforts to improve fish passage.
- Training Updates
- Future Forum Topics
