

Farmed White-Tailed Deer Registration Renewal and Inventory

To maintain registered herd status, a complete animal inventory must be conducted and submitted every 12 months. Inventory documents for the annual renewal include:

- Farmed Registration Renewal and Inventory cover sheet
- Inventory list of animals currently in herd
- Re-Tagged Farmed Cervidae
- Cervid Mortality Summary

The accuracy of the inventory must be verified by the owner and an accredited veterinarian by signing and submitting the inventory to the board (1721.0380 Subp. 4). Every third year, a physical inventory must be verified by an accredited veterinarian.

Inventory completed date: _____ **Premises ID:** _____

Annual or Physical Inventory (check one)

<input type="checkbox"/> Annual Inventory: An annual inventory is to be completed every 12 months on years the physical inventories are not required. (MN Rule 1720.0380 Subp.4). Please check the box if you certify that the attached farmed Cervidae annual inventory is complete and accurate as of the date listed.
<input type="checkbox"/> Physical Inventory: A physical inventory is to be completed every three years by all farmed Cervidae herds (MN Rule 1720.0380 Subp.4). Please check the box if you certify that the attached farmed Cervidae inventory includes the physical verification of all tags and a complete and accurate recording of all identification, age, and sex for every animal in the herd, verified by both you and an accredited veterinarian.

Owner

I certify that the attached farmed Cervidae Registration Renewal and Inventory, Cervid Mortality Summary and all retag information is complete and accurate as of the date listed. I certify that all herd additions originated from herds with an equal or higher CWD status.
