

# Winter Severity Index

## November 1, 2023 - April 24, 2024

### Legend

Counties  
**Winter Severity Index**  
 50 or lower  
 51 - 75  
 76 - 90  
 91 - 105  
 106 - 119  
 120 or higher

The Winter Severity Index (WSI) is a general measure of winter conditions. In Minnesota the WSI is calculated by accumulating 1 point for each day with an ambient temperature  $\leq 0$  degrees F and an additional point for each day with a snow depth  $\geq 15$  inches. End-of-season values  $\leq 50$  indicate a mild winter; values  $\geq 120$  indicate a severe winter.
